

"DONT B L8 4 UR APPT PLS"

brought to you by SMiles Alert Services

Allows users to set up "future dated SMS messages" or *appointment reminders*. You can also set up recurring reminders saving you time and money.

Our SMS service is cheaper than a phone call and a stamp

How many of your clients/patients do not turn up when they are supposed to?

Typical outpatients clinics using SMS-based appointment reminder systems have cut non-attendance rates by 30 per cent, even when take-up of the texting service was as low as 20 per cent. What could it do for you???

This service can be used as reminders for meetings, medication, appointments, bill payments as well as anniversary greetings. All messages can be scheduled months in advance. Our interface is an easy to use web interface and offers exceptional great value. Having been specifically designed to look and work just like Microsoft Outlook[®].

SMiles' Alert service offers its users the following functionality:

- High quality, anywhere anytime, multiple user, web access
- Reminder templates - frequently used texts ready to send
- An address book to keep track of your clients or friend's contact details
- Set up groups - great for individual or meeting reminders, maybe even a party.
- A full message library for those easy to use templates
- An archive of previous reminders

With SMiles there are no monthly fees - you simply pay for the reminders you send. Registration is free and includes 2 free reminders. Credits can then be purchased as required. SMiles currently offers a Paypal gateway interface

Remember - it costs more to call them than text them.

To contact a member of our sales team please email info@smilessms.com or telephone +44 (0)800 083 7845.

All our services are designed around customer requirements - nothing is set in stone, we continually look for more proactive solutions and reach to fulfil that customer requirement - unlike most providers, if we cannot fit to suit, we will endeavour to change to accommodate you.
